► Letter to Facebook – Palo Alto, CA, USA  
(returned as refused on Sept 2<sup>nd</sup>, 2019)

Wien | Vienna,

25.05.2019

Betreff | Reference: **Identitäts-Diebstahl | identity theft – fb GB**

Guten Tag.

In **facebook** erscheint für meine Experten-Seiten <http://medpsych.at> diese URL:  
<http://fb.me/1d6wLEwKu>

**Ich war nie Mitglied bei facebook, dieser Eintrag ist mangels Einwilligung illegal.**  
Die Zugriffssperre über den illegalen fb-Link wie dargestellt führt dazu, dass auf die *ursprüngliche* URL nicht mehr zugegriffen werden kann. Ein Ausschluss der zugeordneten IP 31.13.72.36 (fb / GB) per „htaccess“ bleibt unwirksam.

Alle Aussagen, die etwa auf *facebook* in meinem Namen bzw. durch Verwendung von Teilen meiner Identität getroffen werden, sind als **Identitätsdiebstahl** zu werten. Ohne Zugangs-Code ist mir die Kontrolle von derlei Vorgängen in „social media“ jedoch unmöglich.  
Die Kriminalpolizei ist informiert.  
Können Sie zur Identifizierung dieser Person beitragen, seien Sie willkommen!  
Verwenden Sie, bitte, diesen Link: [info@medpsych.at](mailto:info@medpsych.at)

Freundliche Grüße,

Mag. Dr. Volkmar J. Ellmauthaler, e.h.

Ladies and Gentlemen,

in **facebook**, the URL of my professional website <https://medpsych.at> appears as:  
<http://fb.me/1d6wLEwKu>

**I've never been a facebook member; this entry, for the lack of approval, is illegal.**  
Any *denial of access* by the illegal fb link, as typed, causes the *original* URL to become inaccessible. Banning the referred IP 31.13.72.36 (fb/GB) by “htaccess” remains ineffective.

Any statements, if posted on *facebook* or other “social media” by using content of my identity, must be considered cases of **identity theft**. Without valid keys, any attempt of control is impossible.  
Criminal Police have been informed.

In case you can identify the fb-poster's account and data, you are welcome!  
Kindly use this link: [office@medpsych.at](mailto:office@medpsych.at)

Cordial regards,

Mag. Dr. Volkmar J. Ellmauthaler

Betreff | Reference: Data security assault

Madam, Sir,

As you know, there is no chance to contact “facebook”, if not running an own fb account. That alone is an issue. Still I have to present a technical and legal issue:

As a matter of fact, I have never been – nor will I ever be – a facebook member. Nevertheless, by 2018 was announced, I would be “a facebook user soon” and presently my commercial websites are showing up in fb, **as if the respective link were my original URL: <https://medpsych.at>** – The illegal **facebook link is:**

<http://fb.me/1d6wLEwKu>

I can't trace nor identify the respective facebook account, while my server protocols show increasing download rates, up to 90 MB per day. – As a scientist and author I follow the “open source” philosophy, still some of my original works are **not cost-free**. No payment, however, has ever been offered from the USA region. Mr. Trump would **yell: THAT'S UNFAIR!** – It **is**, in fact, unfair. And:

**The presentation of my content in fb by a fake URL without my lawful consent is illegal.**

**I want to re-gain control over my identity, and data!, and therefore ask facebook to**

**1<sup>st</sup> immediately delete the referred link <http://fb.me/1d6wLEwKu>  
together with the corresponding account(s)**

**2<sup>nd</sup> provide a valid e-mail address for further contacts in case of repeated  
technical assaults by facebook resp. facebook users.**

I have informed the Austrian Ministry of the Interior, in order to investigate the case. Apart from the legal question, I prefer **immediate results**.

This is a question of ethics, which can be solved by technical means. It's up to you.

Regards,

Mag. Dr. Volkmar J. Ellmauthaler
